

Venice Carnival

SENSATIONAL VENICE CARNIVAL

5 Days/4 Nights Itinerary

Day 1 Arrive at Venice airport and transfer to the hotel. Dinner and overnight stay. **(D)**

Day 2 Venice - Transfer to Venice Island. The whole day is dedicated to the most suggestive Carnival in the world. Do not forget to carry a camera, find a good spot on the banks of the Grand Canal and view the magic feast! Return to the hotel for dinner. **(B, D)**

Day 3 Venice - Transfer to Venice Island for a special walking tour taking approximately 5-6 hours along different canals. Visit the "Squero" and discover the art of making and painting gondolas. After that move on to St Mark's Square, pausing in various attractive squares along the way. Stop in "Baccaro" near Rialto for a typical Venetian aperitif, a glass of wine with an assortment of Venetian appetisers. The tour ends in St Mark's Square where there will be some free time before going back to the hotel for dinner. **(B, D)**

Day 4 Murano, Burano, Torcello - Experience several of the different facets of Venice. Embark on a boat journey to some of the Venetian Lagoon's remarkable islands. First stop in **Murano**, home of the world-famous blown glass, and have the opportunity to visit the small family-run workshops and witness art in creation. **Burano**, next stop, is famous for the beauty and complexity of the lace-work that their craftsmen have created for centuries. Burano is also known for the brightly and vividly painted houses that line this tiny island's streets. The final island on tour is the delightfully peaceful **Torcello**, a silent haven of repose in the otherwise active Venetian Lagoon. Once the original Venetian colony, it is now virtually deserted. See Venice's oldest cathedral and the throne that Attila the Hun used when he conquered the citystate over one thousand years ago. Rest of the day at leisure. Return to the hotel for dinner. **(B, D)**

Day 5 Depart for the airport or call us if you want to extend your stay in Italy.

Murano Glass Factory

Venice Carnival
