Secrets of private mansions

2022

Exclusively with the local guides of the Tourist Information Center

Massive doorways, big courtyards bathed in sunlight, stairways with wrought-iron railings, the private houses of Avignon are true hidden treasures, oftentimes private and inaccessible, and full of secret stories. They will unveil for you the lifestyle of the highborn families of Avignon.

During this guided tour, you will have the privilege to enter some of those private mansions, real hidden gems, some public (schools or museums), others private and inaccessible.

One of the high points of this visit will be a personal welcome from Mr Pasquali Jacopo, originally from Firenze, Italy, and in love with Avignon. He will open the doors of his house for you and share his passion for antiques, revealing his beautiful private collection made of artefacts gathered by him and his family who's been living in Firenze since the beginning of the 19th C. His collection counts approximatively 500 works of art from the 16th C to the 20 th C : paintings, statues, China, enamels, works of art coming from Europe (Italy and France in particular) and Asia (China, Japan, India).
